The Stallnist United Front with God

I don't know whether you would call it the united front from above just a working arrangement with a "rank and file god", but anyhow on Memorial Day there it was. The Daily Worker re- their employees, etc., etc." ports that 15,000 youth marched. Even taking into account the Stalinist method of estimating parades, there is still something wrong. 15,-000 youth! Unless the majority of the paraders were followers of the new God and have been "born again of the water and the spirit" they couldn't be called youth by any stretch of the imagination. The Daily Worker reports that Father Divine's contingent comprised 3,000 marchers. I don't know about that, but I do know that the intelligent and class-conscious Negro supporters of Communism turned away in disgust when they saw the Stalinists elevating Father Divine and his hoodwinked fanatical following into partnership in the Y.C.L. demonstration against War and Fas-

We can well believe Father Di vine's boast that he made converts from the Stalinist ranks. If one is ready to accept Earl Browder as the brilliant, masterly, etc., etc leader who cast "a spell over the convention (Olgin) it requires scarcely more than another step on the same path to hail Father Divine as God and God as peace, and wave the arms and shout "Oh, its won derful!"

Biro-Bidjan

The Soviet Union has granted to

Biro-Bidjan the status of an autothe Soviets of granting complete self-determination to the oppressed nationalities, and even to small national minorities. Here is a bit of historic justice—that the country once anathematized by the workers of all lands for its violently reactionary instigations and pogroms against the Jews, should now be the first to grant a vast territory to them for their free cultural development. Coming too, at a time of extreme fascist reaction when the capitalist dictatorships of Germany, Austria, Poland, Bulgaria, Rumania, Latvia have taken over Czarist tactics of diverting the pent-up wrath of the masses against the terrible conditions under which they are forced to live, of transforming this as yet unguided anger into a weapon of reaction by making scapegoats of the Jews,-the action of the Soviet Government stands out in bold contrast and will undoubtedly draw the Jewish masses everywhere into closer sympathy with Soviet Russia.

Contrast with Palestine Inevitably the question will pose

itself to the many Jews attracted now more than ever to the idea of a homeland-which one, Palestine or Biro-Bidjan? To the Marxist this question can have but one answer. There can be no question of the idealism of the Jewish masses in supporting Palestine and immiries a double taint, that of capitalist dividing of the working class cerned) that the Zionists everywhere set themselves apart from the workers' movement. The Question of Freedom

Biro-Bidjan, on the 'other hand stands as a symbol for all nationnational minority-and this can be said categorically -- can gain its freedom under capitalist rule. Today only by enlisting in the international class struggle on the side of the proletariat for the complete overthrow of capitalism, for the abolition of private property and capitalist exploitation, can the oppressed national masses gain their freedom. In every nation there exists, as Lenin pointed out, not one national culture, but two. The dominant culture, that of the present ruling class, is one of robbery at home and abroad, of exploitation and oppression of all kinds, including that of national minorities. The other existing in embryo only in the capitalist countries, is that of proletarian democracy, of international socialism fighting for unity of the oppressed against all separatist barriers of race, color, religion, including the national barriers. The proletariat of each and every land in liberating itself also leads to the liberation of every other section of the oppressed masses.

. . . . Defense of the Soviet Union

That is the meaning of Biro-Bidjan. Here the Jews are given the opportunity to establish a real homeland devoid of capitalist exploitation and built in cooperation, not merely with each other but with the international proletariat. Let no one assume the task is easy for Biro-Bidjan no more than the rest of the Soviet Union is safe so long as capitalism still exists. But the Jewish masses have an added reason for supporting the workers' fatherland and defending the Soviet Union.
