COYOACAN, D. F., Sept. 26. Comrade Mateo Fossa was delegated by the Committee for Trade Union Freedom to attend the conference of Latin-American trade unions convoked in Mexico. The Committee for Trade Union Freedom embraces 28 organizations, among them 24 independent trade unions.

Each of these organizations individually gave written credenthis the managers of Latin-Ameradmit comrade Fossa to the conference. Did not admit? How? Very simply-closed the doors in his face, For what reason? The reason is not complicated.

For a short period, Comrade Fossa belonged to the Argentine Communist Party, but raised a voice of protest against the Moscow trials. This was sufficient for the respected trade union worker to be dubbed an enemy of the people, a "Trotskyite," and so on. From Buenos Aires, the Stalinists immediately informed Lombardo Toledano of the arrival at the congress of a dangerous delegate who did not believe in the immaculate purity of Stalin, Vyshinsky, Yezhov, and the other falsifiers.

Toledano, G.P.U. Flunkey

When the G.P.U. gives orders, Toledano obeys. This now constitutes his main role in the working class movement. No matter how preposterous it may sound, yet the bourgeois lawyer, Lombardo Toledano, closed the doors of the trade union conference in the face of the worker Fossa, an honest Argentine revolutionist. Nothing remains for the proletarians of Mexico but to hail: "Long live the totalitarian regime! Long live our fuehrer, Adolf To-

Of course, timely revolutionary action by the international proletariat could paralyze the rapacious work of the imperialists. But we must look the truth straight in the face. The working masses of Europe in their overwhelming majority are under the leadership of the Second and Third Internationals. The leaders of the Amsterdam International of trade unions fully support the policy of the Second and the Third Internationals and enter together with them into so-called "People's Fronts."

People's Front For Imperialism The policy of the "People's Front" as is shown by the example of Spain, France, and other countries, consists in subordinating the proletariat to the left propriation of wealth in land and wing of the bourgeoisic. But the oil? entire bourgeoisie of the capitalist countries, the right as well as the "left" is permeated through and through with chauvinism and imperialism. The "People's Front" serves to turn the workers into cannon fodder for their imperial-

ist bourgeosie. Only that and nothing more. The Second, the Third, and the Amsterdam Internationals are at present counter-revolutionary organizations whose task it is to put brakes upon and paralyze the revolutionary struggle of the proletariat against "democratic" imperialism. So long as the criminal leadership of these Internationals is not overthrown, the workers will be powerless to oppose war. This is the bitter but inescapable truth. We must know how to face it and not console ourselves with illusions and pacifist babbling.

Must Fight All Imperialism Fossa: What consequences will the war have for the Latin-Amer-

ican countries? Trotsky: Doubtless both imperialist camps will strive to drag the Latin-American countries into the whirl-pool of war in order to enslave them completely afterwards. Empty "anti-fascist" noise only prepares the soil for agents of one of the imperialist camps. To meet the world war prepared, the revolutionary parties of Latin-America must right now take an irreconciliable attitude toward all imperialist groupings. On the basis of the struggle for self-preservation the peoples of Latin-America should rally closer to each other.

In the first period of war the position of the weak countries can prove very difficult. But the imperialist camps will become weaker and weaker with each passing month. Their mortal struggle with each other will permit the colonial and semi-colonial countries to raise their heads. This refers, of course, also to the Latin-American countries; they will be able to achieve their full liberation, if at the head of the masses stand truly revolutionary, anti-imperialist parties and trade unions. From tragic historic circumstances one cannot slip out by trickery, hollow phrases, and petty lies. We must tell the masses the truth, the whole truth, and nothing but the truth.

Tasks of the Trade Unions Fossa: What in your opinion are the tasks and the methods

Trotsky: In order that the trade unions should be able to rally, educate, mobilize the proletariat for a liberating struggle they must methods of Stalinism.
