# In the Labor Unions

We know some unemployed nailroad worker's in Astoria, New York, who will be especially interested in the following item we picked up in Cleveland, Ohio, this week.

The convention of the Brotherhood of Railroad Trainmen is still going on. Ats cost is now nearly \$1,000,000., By .he time the convention adjourns, over one million bucks will have been used from the union treasury for convention expenses! hat's more dough than the C.I.O. used to organize the auto :::dustry!

#### Set-Back for Whitney

By the way, President A. F. Whitney took some severe setbacks at this convention. George W. Anderson, secretary-treasurer, who blasted the extravagance of the Whitney regime as reported previously in the Socialist Appeal, was reelected to his post.

Whitney defeated Charles H. Smith for presidency. He was shocked to find opposition to his office. Whitney's attempt to get Smith defeated subsequently for the position of vice-president which he had held, was unsuccessful. J. A. Farquharson, editor of the Railroad Trainmen and national legislative representative of the brotherhood, another Whitney opponent, was also re-elected.

The climax in many respects came when 300 anti-Whitney delegates held a special dinner and dance to honor opposition leaders this week.

Whitney's attempt to achieve dictatorial control of the Brotherhood has collapsed. Unfortunately, the opposition is no more progressive on most issues than Whitney. The worst aspect of the railroad unions is the huge bureaucracy set up which eats the finances of the unions and weighs them down into impotency. This convention illustrates the fact strik-

#### Technological Progress

An idea of what technological development and subsequent unemployment mean to a worker was furnished by a tire builder who reports the fol-

"Ten years ago I used to make 28 special size tires in a day's work. I was making 56 of the same tires until recently. They had improved the machine and figured out in timestudies how to save operations that increased my work to the

"Now I am scheduled to make 180 of these tires in six hours with a new tire-building machine they are setting up! And this is in six hours! My pay isn't any higher than it was ten years ago! Of course, installing this new machinery will mean that one tire builder can do the work of three. What happens to them? They can't

even get on W.P.A. anymore.' Incidentally, this tirebuilder isn't interested in the slogan 30-30 for himself. He makes more than \$30 a week for a 30 hour week. What he wants to know is what can be done and how can it be done so that he gets the benefit of his increased

While there is a lingering re sentment against the introduction of new machinery, most workers show their resentment against the right place, the bosses. The job of the union is to fight for the benefits that company gets from the new machinery. Much higher pay and much lower hours is the way to squeeze the benefit from the bosses.

#### Book Proceeds To Chinese 4th Internationalists

A sympathizer has donated number of copies of Freda Utyle's book, "Japan's Gamble in China". The proceeds are to go for the work of Chinese 4th Internationalists, whose appeal for funds to carry on their vital work was published recently in the Socialist Appeal. Comrades are urged to obtain a copy now on sale at the Labor Bookshop for \$2.

General Executive Board I.L.G.W.U.

Attention: David Dubinsky Dear Brother:

I appear before you to present for your consideration and adoption a very urgent resolution which calls for immediate action on an issue that is vital to the organized labor move-

The recent activity of the Coughlinites has placed the issue of fascism squarely before the workers of New York. Not only have the Coughlinites sold their fascist literature in the principal sections of the city, but they have now begun to organize physical attacks against workers and working-class organiza-

They have attacked street meetings of workers' organizations, attempting to break them up with violence. Their literature has long engaged in Jew-baiting. Now this vicious anti-Semitism has begun to take on an extremely provocative form. Under the guise of calling labor speakers "Jews" and "communists", they have attempted to drive these speakers off the streets.

The whole history of the Coughlin movement shows that it is a deliberate fascist movement designed to crush the American labor movement. Its anti-Semitism alone would characterize it as similar to the movements in Germany and Italy which put Mussolini and Hitler in power and which wiped out the labor organizations in those countries. There is good reason to believe that the Coughlin movement is secretly financed by Big Business as were the Mussolini and Hitler organizations. Now the Coughlin forces in New York City have become so bold and provocative that they have organized raids into working-class sections. Last Saturday, they began selling their fascist literature in Union Square and stabbed a school teacher, Samuel Applebaum; and they have now invaded the Needle Trades area. Saturday night, they invaded the Debs Labor School, 114 West Fourteenth Street, and wrecked it, smashing typewriters, destroying records, and stealing lists of names. This is exactly the way fascism and Nazism began-by smashing the headquarters of labor organizations, stabbing and shooting workers under the guise of Jew-baiting.

If labor does not answer these attacks, then the Coughlinites will begin a bolder and more daring series of attacks on larger organizations, and eventually crush the American trade unions.

It is estimated that there are more than 800 fascist organizations in the United States beside the Coughlinites, and all these organizations are now beginning to gather together. The experience of the labor movement in Europe has proved beyond doubt that labor can withstand the onslaught of the fascists only if it relies primarily on its own organized

In view of the rising fascist danger and especially the activity of the National Union for Social Justice (Coughlinites) Local 66, I.L.G.W.U., favors the immediate organization of an Anti-Fascist Union Guard. It further urges all other locals in our international union to endorse the creation of such guards as the only method of effectively combatting fascist formations and preserving the democratic rights and civil liberties of labor.

The purpose of this Anti-Fascist Guard will be to defend the civil liberties and the democratic rights of our union, and to work together with all labor organizations against fascist

# Who Is Father Coughlin, What Is His Program?

Continued from Page 1)

In the vicious strike-breaking campaign that followed,

the strikers asked Father Coughlin for help.

He REFUSED to see their delegation. He refused to broadcast in their behalf. He refused to speak a single word in their cause.

Let it not be forgotten, that many of the leaders of this strike were members of Father Coughlin's organization. the National Union for Social Justice.

The police, the armed scabs, the organized company terror—these, combined with the Judas kiss of Father Coughlin, broke the strike.

Yes, Coughlin promises many beautiful things to the oppressed, but when the crucial moment comes, he is the first to plant the dagger in their backs.

Since the formation of the C.I.O. Coughlin has assailed

it venomously and incessantly. When Governor A. B. Chandler of Kentucky ordered President Roosevelt's National Guard down to Harlan County with orders to shoot to kill if necessary to break the strike, Coughlin whitewashed the coal operators who have been notorious throughout the nation for half a cen-

tury as one of the most tyrannical, bloody, and violent

sections of the boss class.

"The Union Leaders Made Troops Necessary." (Social

Justice, June 5, 1939, p. 21, headline to article on Harlan.) "To guarantee the men their right to work, Governor Chandler found it necessary to call out nearly 1,000 National Guard troops to stand guard over the mines. . . Lewis defied the forces of law and order in Harlan County, Ky., where Governor Chandler said that 75 per cent of the mine workers desired to work, despite Lewis' command that they continue in idleness. The cry of revolt (against Lewis) was heard in other sections sickened by Lewis' one-man rule over their jobs, homes, and happiness." (Social Justice, May 22, 1939.)

The coal operators, who are also the county officials, openly admitted that THEY sent for the troops to break
