SPARKS IN THE NEWS From Far East to Danzig Arena

Information, Please

For some time now we have been told by the press of the Socialist Workers Party that the fate of the workers of the world turns to a large extent on how the crucial situation in France develops. I agree entirely. But I have been, to put it mildly, disappointed with the way the S.W.P. press has covered the French front. The recent developments in the P.S.O.P. and the relation of the P.O.I., the London Bureau and the Fourth International, to them -this most central of all themes has been touched on only in the most gingerly way. The cut-and-dried account of the P.S.O.P. congress which was printed in the Appeal of June 23the entire story being told, in the most unenlightening and perfunctory way, in about 500 words-this is a recent case in point. I don't see why the Appeal can't find a Paris correspondent who will send in regular articles interpreting such things as the Stalinists' attitude toward the Daladier regime, the latest tendencies in the P.S.O.P., the rumored right-wing split in the French C.P., and so on. I realize that the French situation, from the standpoint of the Fourth International, is at present both delicate and complex. But that seems to me all the more reason why it should be fully discussed in the Appeal. Ostriches, not revolutionists, hide their heads in the sand.

Add: Kremlin Kultur

There have been objections to my inclusion of Eisenstein, Shostakovitch and Meyerhold in last week's "agony column" on the grounds that, since the date of the news stories I quoted, all three of these artists have been taken back into official favor. As for the first two, the price they have paid for reinstatement in the Kremlin's good graces is the abandonment of their experimental techniques in order to turn out the most banal and conservative work (Eisenstein's Alexander Nevsky; Shostakovitch's latest symphony), utterly lacking in the qualities that made them worldfamous. As for Meyerhold, I quote from today's N. Y. Times: "MOSCOW, June 23-Vsevolod Meyerhold . . . was taken from his Moscow home by secret police night before last and locked in a cell at Lubyanka prison. . . . His arrest surprised Soviet stage and literary circles because recently he seemed to be coming back gradually into favor."

"Egyptian Socialism"

In the May issue of Jewish Frontier there is an extremely interesting article by Salomon Schwartz on "Social Legislation in the Soviet Union". Schwartz begins with a point which fits neatly into the thesis of Trotsky's recent article in the New International: namely, that the Soviet bureaucracy which used to masquerade as part of the working class, in the last year has openly asserted its differentiation from the workers. They don't, of course, call themselves "bureaucrats". No. the term the press now uses for these gentlemen is-"the intelligentsia"! "Under the banner of the 'intelligentsia'." writes Schwartz, "there is be-

ing consummated a process which has practically nothing to do with that name. That process is the social self-assertion of the upper stratum of the Party and Soviet bureaucracy and its 'liberation' from the intimate ties of the proletarian ideology."

Early last December the press began printing scores of letters from Stakhonovites, Udar- Free City, whch voted the usu- Bitler free to engage his rivals niks, straw bosses, and, of course, 'intelligentsia', 'exposing' lax discipline and low production in the factories and 'demanding' strict filled with storm troopers and laws be passed to remedy this. WENDELL PHILLIPS (Nov. 29, 1811-Feb. 2, 1884)

In a small mid-western town a mob of respectable people invaded the printshop of Elijah Lovejoy. They dragged him out, did these good northerners, and lynched him. Lovejoy had infuriated them with abolitionist agitation. The year was 1837-the Civil War was some twenty-odd years off.

Wendell Phillips, well-to-do Harvard man, went to a meeting in Faneuil Hall, Boston. called to discuss the murder of Lovejoy. Social problems hadn't agitated him much before. True, he had attended one or two abolitionist meetings, but that was the extent of his social protest. In fact, he went that evening to Faneuil Hall not so much out of aroused indignation as out of liberal interest. But Wendell Phillips that night changed the course of

A Champion of Truth

The Assistant Attorney General of Massachusetts took the the platform to speak his approval of the lynching. Hardly had the Attorney General sat down when, burning with fury, Phillips jumped on the platform and delivered an impassioned denunciation of the slave system, the murder and those who would condone both. Several unsuccessful attempts were made to stop him. When he finished, the placid Bostonians cheered themselves hoarse. Of a sudden. Phillips had become a leading spokesman of the cause against slavery-along with Lloyd Garrison.

His friends thought him insane. It was alright to show some sympathy for the slaves, to contribute money to the abolitionist movement, even to attend a meeting. But to plunge wholeheartedly into freedom's cause, to submerge oneself in the fight against chattel slavery, to devote one's life to an ideal-that was something altogether different.

Phillips, however, did precisely that. A "Knight-Errant of Unfriended Truth" he spent one night in a valley speaking to a few people, the next in a large city addressing a huge crowd. Often he had to leave the meeting-hall under protection. For the respectable people who had lynched Lovejoy and beaten Garrison, would have been glad to do as much to him. At one meeting the town's "respectables" roared so loud Phillips could not be heard; he nevertheless continued speaking, addressing himself to the newspapermen: "While I speak to these pencils I speak to a million men. We have got the press of the country in our hands; whether they like it or not, they know that our speeches sell their papers."

Because a lawyer had to swear fidelity to the Constitution, Phillips in 1842 gave up his

practice. "My curse be on the Constitution of the United States". . . which defends slavery. He was as caustic with the scriptures which sanctified slavery.

His enemies called him "nigger-friend" And a friend of the Negro he was; looking beyond formal emancipation to real equality. Skirts Basic Problems When, the Civil War over, Garrison and other abolitionists were content to give up the fight, he insisted upon the continued existence of the Anti-Slavery Society until full suffrage rights

Upon Whom Shall We Rely to Fight Coughlin?

Continued from Page 1)

Can the Trade Unions Alone Stop Fascism?

The trade unions, bogged down with the bureaucracies headed by John L. Lewis and William Green, stand helpless before the terrible problems now facing the working class, the half-ruined farmers, the small business men, and the destitute unemployed.

The trade unions as fighting organizations of the working class won huge successes in the past, conquering many of the rights of labor and defending them during the upswing of capitalism. Today under the domination of Lewis and Green the trade unions if left alone and without help

Father Coughlin understands the limitless strength of America's laboring people far better than do Lewis and Green with their corner grocery outlook.

That is why he attempts to turn the unemployed, tooth and nail, upon those organized in trade unions.

That is why he denounces the C.I.O. and the A. F. of L. over his radio network. That is why he calls strikers "idlers," and speaks of the "jobs they have left."

That is why he calls every militant trade unionist a 'communist," a "socialist," a "Jew."

That is why he exerts every ounce of his voice and his pen to build up a terrible hate for the words: communist. sovialist, Jew.

The trade unions alone, especially as they have been caught in the death grip which democratic capitalism has clamped upon Lewis and Green, cannot meet the situation.

A new force is needed and needed badly. A new weapon of the working class must be forged.

An Independent Labor Party, a fighting militant political party of the working class charged with vision, with daring, with invincible boldness must be organized as the battering ram that will smash this entire trashy structure of New Deal politics and the poisonous fascist growths that swell upward from its rotting foundation.

Fascism in America Must Be Stopped!

We must not repeat the mistakes of the labor movement in Italy and in Germany which permitted forgers, sidewalk spielers, and sideshow adventurers like Mussolini and Hitler to take over power.

The first lesson to learn is not difficult: LABOR MUST DEPEND ON ITS OWN STRENGTH.

Labor must have its own independent political party. Labor must have its own defense guards.

The greatest danger of all is to depend on the Roosevelts, the LaGuardias, the police, and the boot lickers of these former bosom friends of Coughlin and his ilk. The first task that labor must perform in stopping the

fascist movement in America is the organization of a workers' defense guard. Every union local should begin the immediate organiza-

tion of a guard to protect itself from the certain onslaught of the fascists in the near future.

The sooner these guards are organized the more efficient they will become in protecting the labor movement.

Trained, disciplined, and bold workers defense guards are the ONLY FORCE that can physically stop the fascists from overpowering the labor movement in America. (Concluded in next issue)
