Majority Resolution on War and Militarism

Adopted by Referendum Vote with overwhelming Majority against
Minority Resolution A

The Socialist Party of the United States in the present grave crisis, solemnly reaffirms its allegiance to the principle of internationalism and working class solidarity the world over, and proclaims its unalterable opposition to the war just declared by the government of the United States.

Modern wars as a rule have been caused by the commercial and financial rivalry and intrigues of the capitalist interests in the different countries. Whether they have been frankly waged as wars of aggression or have been hypocritically represented as wars of "defense," they have always been made by the classes and fought by the masses. Wars bring wealth and power to the ruling classes, and suffering, death and demoralization to the workers.

They breed a sinister spirit of passion, unreason, race hatred and false patriotism. They obscure the struggles of the workers for life, liberty and social justice. They tend to sever the vital bonds of solidarity between them and their brothers in other countries, to destroy their organizations and to curtail their civic and political rights and liberties.

The Socialist Party of the United States is unalterably opposed to the system of exploitation and class rule which is upheld and strengthened by military power and sham national patriotism. We, therefore, call upon the workers of all countries to refuse support to their governments in their wars. The wars of the contending national groups of capitalists are not the concern of the workers. The only struggle which would justify the workers in taking up arms is the great struggle of the working class of the world to free itself from economic exploitation and political oppression, *and we particularly warn the workers against the snare and delusion of defensive warfare.* As against the false doctrine of national patriotism we uphold the ideal of international working class solidarity. In support of capitalism, we will not willingly give a single life or a single dollar; in support of the struggle of the workers for freedom we pledge our all.

The mad orgy of death and destruction which is now convulsing unfortunate Europe was caused by the conflict of capitalist interests in the European countries.

In each of these countries, the workers were oppressed and exploited. They produced enormous wealth but the bulk of it was withheld from

them by the owners of the industries. The workers were thus deprived of the means to repurchase the wealth, which they themselves had created.

The capitalist class of each country was forced to look for foreign markets to dispose of the accumulated "surplus" wealth. The huge profits made by the capitalists could no longer be profitably reinvested in their own countries, hence, they were driven to look for foreign fields of investment. The geographical boundaries of each modern capitalist country thus became too narrow for the industrial and commercial operations of its capitalist class.

The efforts of the capitalists of all leading nations were therefore centered upon the domination of the world markets. Imperialism became the dominant note in the politics of Europe. The acquisition of colonial possessions and the extension of spheres of commercial and political influence became the object of diplomatic intrigues and the cause of constant clashes between nations.

The acute competition between the capitalist powers of the earth, their jealousies and distrusts of one another and the fear of the rising power of the working class forced each of them to arm to the teeth. This led to the mad rivalry of armament, which, years before the outbreak of the present war had turned the leading countries of Europe into armed camps with standing armies of many millions, drilled and equipped for war in times of "peace."

Capitalism, imperialism and militarism had thus laid the foundation of an inevitable general conflict in Europe. The ghastly war in Europe was not caused by an accidental event, nor by the policy or institutions of any single nation. It was the logical outcome of the competitive capitalist system.

The six million men of all countries and races who have been ruthlessly slain in the first thirty months of this war, the millions of others who have been crippled and maimed, the vast treasures of wealth that have been destroyed, the untold misery and sufferings of Europe, have not been sacrifices exacted in a struggle for principles or ideals, but wanton offerings upon the altar of private profit.

The forces of capitalism which have led to the war in Europe are even more hideously transparent in the war recently provoked by the ruling class of this country.

When Belgium was invaded, the Government enjoined upon the people of this country the duty of remaining neutral, thus clearly demonstrating that the "dictates of humanity," and the fate of small nations and of democratic institutions were matters that did not concern it. But when our enormous war traffic was seriously threatened, our government calls upon us to rally to the "defense of democracy and civilization."
