

partition of China, for the destruction of the Soviet revolution in China and above all for military intervention in the Soviet Union, the Fatherland of all the workers of the world. Full use must be made of the material that the Parties have on the imperialist war and the preparations for intervention in the Soviet Union, raising the central slogans for the defense of the Soviet Union. In the agitation against imperialist war, we must point out the role of the native bourgeoisie and landlords, as the native exploiters of the workers and peasants and the tools of the foreign imperialist robbers, in each country of the Caribbean.

F. While our main objective in the campaign is the agitation and organization of the working women in the basic industries, we must not overlook the importance of reaching the proletarian women who are ~~not~~ found in the organizations controlled by the reformist and bourgeois pacifists. It will be the task of the Party to win over the rank and file working women of these organizations for their participation in our demonstrations and mass meetings. In doing so, we must ruthlessly expose the treachery of the social-fascist leaders of the reformist organizations and only on the basis of our special demands for the working women and toiling women peasants, will we be able to penetrate these organizations and win the rank and file to our side. No less ruthless must be our attacks against the bourgeois pacifist organizations dominated by bourgeois and petty bourgeois leaders, whose purpose is to ~~deviate~~ deviate the struggle of the working class women from a real revolutionary struggle against the foreign and native oppressors.

The above points of agitation must be linked up with the immediate campaigns of the Parties, such as; unemployment, struggle against wage cuts, against the terror, the building ~~up~~ up of revolutionary unions, etc.

#### 11. SLOGANS.
