

As can be ~~proved~~ authentically stated, our Parties have thrown over the old elements and recruited new members, who are the ones who work in all the organizations at the present time.

I ought to state, that although I am the delegate of the Secretariat of the KIM for the Caribbean, I could not place the interests of the KIM organization before the general interests of our class, I could not build up the communist youth leagues before first having a serious Communist party movement. It is owing to this fact that I preoccupy myself more with the constitution of our Parties and ~~the~~ its development as far as possible and in every sense. Since there was revolutionary trade union movement in El Salvador and absolutely nothing in Guatemala, it was necessary to ~~there~~ dedicate much energy to the creation of a real revolutionary trade union movement. We can say ~~the~~ the same with regards to the Caribbean MOPR work.

I think that with these notes of information you will have a clear idea of the situation of our Parties and our YCL's.

With Communist greetings, for the KIM

Jorge Fernandez Anaya
