

# Women's Auxiliary In Fight Against Anti-Negro Terrorism

N. Y. — Protest actions against anti-Negro terrorism which is flaring up in many parts of the country, will be conducted by the N.Y. NMU Women's Auxiliary on a big scale during the next two weeks.

The brutal lynching of two men and two women in Georgia last week, the lynching of a sharecropper who dared to vote, and outcroppings of violence against Negroes in New York will be condemned and the demand made that those guilty of these acts be prosecuted to the full extent of the law.

Petitions of the National Negro Congress, appealing to the Social and Economic Council of the United Nations, are being circulated. The UN is being urged to investigate the oppression of the 13,000,000 Negro citizens of the United States. At the N. Y. NMU membership meeting on July 29 many signatures and contributions were collected by Sisters Louise Granville and Esther Dorian.

Auxiliary members joined the mass meeting of New Yorkers at Madison Sq. Park on July 31, in a rally called by the National Negro Congress, to score the ugly symptoms of domestic fascism, in the brutality against Negroes, among them veterans.

and acts should be directed in support of improving the lot of local labor on the Isthmus. It is with interest we look forward to learn more of the discussions and decisions to be reached at the ILO conference. A hard blow will be dealt the diehards who refuse to give up their selfishness, but it will be a well deserved blow.

The Stewards of UPW-CIO, Local 713 will soon get their CIO INSTRUCTION BOOKS. It is a 48 page (book let) containing concise information to Stewards, and published by the CIO Department of Education & Research. Its contents, after reading and putting into practice should place Stewards in an "A" grade classification, as it deals with all phases of labor and management, giving instructions to Stewards as regards to approach, how to use tact, make collective bargainings, etc. The introduction is written by no less a person than CIO President, Philip Murray. "It is the sincerest wish that the Stewards will do what is expected of them and nothing less on receiving these (book lets)" says Chief Steward Edw. Atherton. Spanish translation is now in process and distribution will be made to all Stewards soon.

Speaking of Stewards, does the Canal Zone Authorities recognize them on the job? This point has to be clarified, and plans are being made with the Governor of the Panama Canal as regards this phase. The Authorities recognize the Foremen on the job; shouldn't the Authorities recognize the employee's representatives? As the so-called silver employees know that the Governor is a Democrat and that he represents a Democratic U. S. Government, the rest will be a matter of time before you Stewards can have your say officially. Maybe experience has taught the so-called silver employees that SILENCE IS NOT GOLDEN any longer.

—x:o:x—  
In a community the people should unite and respect each other's rights. Union members should attend meetings, question your Stewards as regards any problem, make suggestions, and support the weekly mouthpiece ACCION. Write to the Editor and give him all the news, and instead of criticizing the other worker you can do YOUR part. Let's face these facts and make the Union 100% strong.

Today's brief: Doing and saying things at the right time help your efficiency. When

# Towards Emancipation

By: COMMON SENSE  
A WORD OF CAUTION TO OUR MEMBERS

With our elections only a few days off it is imperative that we begin to think of the good or the bad that these results can produce insofar as further strengthening of our Local is concerned.

Whenever an organization or any group is preparing for an election of the persons that are to be responsible for the leadership of the group it is almost natural that there will be instances where certain factions will attempt to support a candidate of their liking, at times very often to such an extent that might be damaging to the organization in question. In other instances, these factions might attempt to undetermine the work performed by an officer who is eligible for re-election, usually with equal detriment to the organization.

Well, that is the problem with which we are faced at present. Already we are hearing of those that favor certain prospective candidates for special positions even although the persons that are present occupying these positions are doing a good job.

In an organization like ours, labor, it is essential that we do not allow events like these to disrupt its smooth functioning. To allow such things to upset a smooth working machinery would mean that we are divided among ourselves, and that our strength as a united body would be considerably weakened.

This is exactly what the opposing forces would be hoping for. This would enable Governor Mehaffey to have the last on Mr. Len Goldsmith as well as on us. We must not forget that our Local is not expected to be functioning after January 16, 1947, so it is our duty to avoid the things that would lead to the materialization of this expectation.

For us to avoid any such pitfalls it would be wise to support a candidate on the qualities that a candidate is usually required to possess, such as common sense, aggressiveness, honesty, etc.

It is very obvious that whosoever is elected to any position will not be satisfactorily accepted by everyone. Nevertheless, all persons emerging victorious in this coming election will have done so only with the support of the majority. For this simple reason it would be unwise to refuse to cooperate with the newly elected officers, because your refusal to cooperate with, or help them, would be interpreted to mean that you are an enemy of the Local.

We should never allow our selfish aims, personal jealousies, nor petty grievances to overcome our obligation to the Local. If the candidate that you supported for a position did not win, you must continue to support the Local by extending your full cooperation to the candidate that won the position.

## MEETINGS.....

(From Page 1)  
the duties of our International Officers, Shop-Stewards' buttons, and a seal for our Local 713. One of these letters also mentioned the proposed visit of Robert Weinstein and Jack L. Strobel, Director of Organization and Regional Director, respectively.

Correspondence from the Panama Canal included those dealing with the establishment of a grievance machinery throughout the Panama Canal and Panama Railroad Organizations be out by October 5; securing of Commissary Authority Purchasing Cards for officers of Local 713 now on authorized leave; and granting of permission to our recording and financial secretaries to purchase stationery at the Panama Canal Printing Press.

Other matters of vital im-

portance to the union were also discussed, among which was the question of the coming election. The presiding officer cautioned all Stewards present of the necessity for unbiased thinking on this problem. Of electing officers, after which the meeting was brought to a close.

A meeting was held on the night of Friday September 27 at the International Club by the employees of the Post Engineer Ft. Davis for the election of Stewards for the division.

The election of officers were as follow:

- S. Steward Bro. W. C. Smith
- " " N. Garcia
- " " J. Ginete
- " " G. Duncan
- " " D. Stevens
- " " E. Sinclair
